CLEAN ENERGY

The Clean Energy Conference Overview

About:

The Clean Energy Conference Australia Africa is an annual premier event, held for over 8 years, attracting 600+ global participants.

It fosters collaboration between Australia's and Africa's energy sectors, offering a unique platform for exchanging technical solutions, innovative ideas and business initiatives driving the clean energy transition.

Supported by key government bodies and industry leaders, the conference provides opportunities for brand visibility, partnerships and insights into the latest clean energy technologies, investments and projects in the rapidly evolving energy market.

Objectives of the Conference:

- To connect professionals from Australian oil, gas, and energy sectors, African local oil, gas, and energy experts, with government officials, projects and investment opportunities.
- To create business opportunities for participants at the event.
- To share new developments and innovations in clean energy technologies and trends that are essential for clean energy.
- To network with like-minded professionals and engage in discussions and opportunities in the clean energy sector.
- To provide a platform for experts in governments, academia and the private sector to engage and inform on new considerations and knowledge in policy formulation.

Why Exhibit at the Clean Energy Conference 2025?

The Clean Energy Conference 2025 brings together government officials, industry leaders, financiers, researchers, and innovators to drive solutions in solar, geothermal, oil & gas decarbonization, electric mobility, and more. With two major gatherings in Kenya and Australia, this event will amplify collaboration and showcase transformative ideas on a global stage.

Participating as exhibitor you will:

- **Gain Visibility:** Position your organization as a key player in shaping the global clean energy landscape.
- **Foster Partnerships:** Meet potential investors, clients, and collaborators to accelerate business growth.
- **Showcase Innovation:** Present cutting-edge solutions, demonstrate your expertise, and influence the clean energy agenda.
- **Drive Impact:** Support community engagement, research, and policy development that lead to tangible sustainable outcomes.

2025 Clean Energy Conference & Exhibition

More Attendees, More Programs, More Value

The clean energy conference is rising rapidly year over year in all key audience groups.

What's happening in 2025?

- 1. High-Profile Keynotes & Panels** - Hear from policymakers, energy experts, and thought leaders driving net-zero strategies worldwide.
- 2. Industry-Focused Sessions** - Tracks on solar, geothermal, EV infrastructure, low-carbon oil & gas, and green finance.
- 3. Interactive Workshops & Networking** - In-depth workshops, roundtables, and networking lounges to build meaningful partnerships.
- 4. Innovation & Research Showcase** - Spotlight on startups, academic research, and advanced technologies shaping the future of clean energy.
- 5. B2B Matchmaking** - Targeted meetings with investors, project developers, and government representatives from Africa and Australia.

Thought-Leadership in the Clean Energy 2050 Track

Do you offer pioneering solutions that energy executives, policymakers, and innovators can't afford to miss? Showcase your product and spark the conversation through panel discussions and thought-leadership sessions live on stage in the Clean Energy 2050 Track.
