The Clean Energy Conference Overview

The Clean Energy Conference Africa Australia is a premier annual initiative hosted across Africa and Australia to drive sustainable energy transition. Focused on renewable energy, climate innovation, critical minerals and green infrastructure, it builds on eight successful editions with 5,000+ participants.

In alignment with Vision 2050, the conference unites governments, Fortune 500 companies, investors and innovators to unlock clean energy investment and position Africa as the clean energy hub. This is the platform to elevate your brand and engage with the clean energy community — a gathering that collaborates, learns and drives innovation for a sustainable future.

The Clean Energy Conference can help your brand with;
